About Longride

Passion for Bags since 1969

LSP bag production is founded in 1969 by Mr. Antoon Claerhout, father of the present CEO. The family company is now managed by Mr. Stefaan Claerhout and his wife Mrs. Marijke Asteur.

The production started with schoolbags, shoppingbags and wallets. These products were mainly distributed to outlet stores in the Benelux. In 1988 the first motorcyclebags were made. The distribution was done by an external company.

Mr. Stefaan came into the management in 1990. Under his influence the mass production changed into quality production.

Since end of 1999, LSP moved his production unit from Belgium to Tunisia. Our own production unit INTERSAC allows us to guarantee the same high quality standards and produce high quality bags for several brands. Development and distribution are still done in our Belgium based headquarter.

Since 2010 the distribution of the motorcyclebags is also in hands of LSP. The LONGRIDE MOTORCYCLEBAGS brand is born!

The distribution of the Longride motorcyclebags is from now on also done out of our warehouse in Belgium.

Please feel free to surf through our collection and find the right bags wich fits your needs.

Enjoy your Longride bags,

Regards,
Stefaan & Marijke.

Materials

Our Heritage collection is made of waxed canvas. This canvas is made water resistant and repellent by wax treatment. The waxed canvas is a very heavy duty of 650 gr/m², specially made for bags.

The finishing of these bags is made out of aged leather. The aged leather is a vegetable tanned oiled leather from north European origin.

A regular waxing of your bags will keep them in good condition. Inside the bags are dubbed with polyester watertight dubbing. In most of the backpack & saddlebags fits our watertight rainbag.

Waxed cotton

The differences

Genuine Leathers

Chrome tanned leather, extremely strong and special wax treated to resist most of the weather conditions. Inside of the leather is blocked so that water can't penetrate easily. This leather is very compact and tanned to keep his shape and stiffness. The used north-east European cow hides, have a natural thickness and grease and guarantee a long lifetime of our bags. A regular waxing of the leather will keep your bags in top condition.

HCL en **CUS** bags are made of genuine leathers.

Iparex

Iparex is a specially, exclusive for the Longride saddlebags and toolbags, developed synthetic 3 layers leatherlook material.

#1 Textile inner layer for strength,

#2 Foamed pvc middle layer to give the material body

#3 Finishing top layer, to protect the synthetic leather against all weather conditions and an ultimate leather look.

This makes this synthetic leather bags almost maintenance free.

Because Iparex is 100% water resistance, you do not have to wax the bags.

HC, **CL** and **CIL** bags are made of Iparex synthetic leathers

Properties

HC, CL, HCL.

Lockable quick release with unique grap and go **kllickfix** system.

Easy „bold on“.

Bike matching designs.

HC, CL, HCL.

Provided with reinforced HDPE liners and backside for optimal support.

HC, CL

Genuine leather straps and buckle holders.

CL

Lockable closure with easy to use push-in lock (Lockable with key).

Matching toolrolls, sissybar bags and accessories.

Universal line of throw over bags

Longride

100% pure quality.

No compromises.

Maintenance & References

How to maintain your bags

Iparex bags

This material doesn't need any maintenance. Just a simple wash by hand with clear water is sufficient to remove all dirt. Do not use water under high pressure. Using soft soap will be no problem for the Iparex material, but do not use soap on the leather straps and carry handles. The leather straps and carry handles you have to treat with natural leather wax at least 3 times a year.

Genuine leather bags

Longride genuine leather bags can be washed with a wet sponge and clear water. Do not use any soap or water under high pressure. After washing, let dry (don't use a dryer).

Treatment at least three times a year your leather bags with natural leather wax.

Nylon bags

The nylon bags you may wash with a normal soap solution.

After that you must rinse it with clean water and let it dry.

Do not use water under high pressure.

Wax Cotton bags

The heritage wax cotton bags you may wash with clean water. Do not use water under high pressure. Do not use any soap.

The leather parts you have to treat with natural leather wax at least 3 times a year.

Never use high pressure cleaners on any Longride bag

Mounting the Click-on bags

Easy to mount

1

Read the mounting instructions delivered with your pair of click-on bags.

Mount the bracket to the existing mounting points of the bike. All necessary hardware is included.

2

Locate and mount the klickfix to the bags. Easy to use templates comes with the bags.

3

Just click the bag to the bracket and you're ready to ride.

4

You can secure the bags to your bike on the inside of each bag by key.

Enjoy your bags.

Mounting the Click-on bags

Herewith you find some useful tips and tricks to mount your bags on an easy and secured way to your bike.

1. Mount the brackets to the motorcycle with the delivered bolts.
(for the universal brackets please check the length of the bolts and use the delivered space holders to check point 8 here below)
2. Check on the inside of the rear fender if the bolts are not too long and can't hit the tire while the bike is suspending.
3. Glue the drawing of the bag on a cardboard plate.
4. Cut out the design of the bag.
5. If available cut out the indicated marked mounting holes on the drawing.
If your bike is not indicated, position the bag in the good position yourself. (see point 8)
6. Put the Klickfix on the bracket.
7. Check if the position on both sides of your bike will be ok for you
8. Make sure:
 - a. there will be enough space between the exhaust and bag (Min 6 cm, 2.4").
 - b. there will be enough space between the rear shock and bag.
 - c. The bag doesn't hit the rear swing arm or axle while suspending.
9. If the position is checked and ok, put the drawing on the backside of your bag.
10. Drill first the (20 mm, 7/8") hole where the lock comes through.
11. Check the position of the bag. (If wanted, you can change the angle of the bag, but see point 8)
12. If OK, drill the 6 mm mounting holes.
13. Mount the Klickfix system to the bags with the washers and screws delivered.
(It can be necessary that you cut (grind) the down washer a little to fit the below position)
14. Always lock the bags to your bike to secure.
15. **You're done.**

We wish you much pleasure with your purchase and please feel free to give your comments on our Facebook page.

Universal brackets

Click-on bags

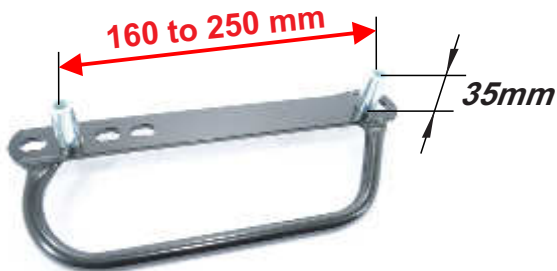

Our Longride Universal Click-on brackets can be used for center distances „X“ varying from 160 to 340 mm. With the universal brackets we deliver 8 distance holders of 35mm. Bolts are NOT included.

Before mounting read carefull the mounting instructions.

Distance holders of 35mm to be used if needed. 4 distance holders are made with inside diam. 8mm bolts, 4 pcs made with inside diam. of 10mm bolts. Please check that the bags are not touching the rear swing arm on maximum suspension. If needed add extra distance holders.

DISCLAIMER

The information, services, products, and materials contained in this publication, including, without limitation, text, graphics, and links, are provided on an "as is" basis with no warranty. To the maximum extent permitted by law, LSP NV disclaim all representations and warranties, express or implied, with respect to such information, services, products, and materials, including but not limited to warranties of merchantability, fitness for a particular purpose, title, non infringement, freedom from computer virus, and implied warranties arising from course of dealing or course of performance. In addition, LSP NV do not represent or warrant that the information accessible via this publication is accurate, complete or current. Design, price and availability information are subject to change without notice.

LIMITATION OF LIABILITY:

In no event shall LSP NV be liable for any direct, indirect, special, punitive, incidental, exemplary or consequential damages, or any damages whatsoever, even if LSP NV has been previously advised of the possibility of such damages, whether in an action under contract, negligence, or any other theory, arising out of or in connection with the use, inability to use, or performance of the information, services, products, and materials available from this publication. These limitations shall apply notwithstanding any failure of essential purpose of any limited remedy. Because some jurisdictions do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of liability for consequential or incidental damages, the above limitations may not apply to you.

IMAGES, LOGO'S & TRADEMARKS & COPY WRITE:

The information and images on this publication may not in any way be used or reproduced in any manner, or for any purpose, without the express written permission, of LSP NV.

LINKS TO EXTERNAL SITES:

This publication may contain links to other publications that are owned and operated by third party vendors and other third parties (hereafter referred to as "Externals"). You acknowledge that LSP NV is not responsible for the availability of, or the content located on or through, any Externals. You should contact the administrator or Webmaster for those Externals if you have any concerns regarding such content located on such Externals.
